Subject: Time for an Update - re: Reedy River & Lake Conestee

Hi Alayna,

Please give me a good time to call you on Monday or Tuesday, or you can try me at your convenience. I should be relatively available.

We last talked on 23 July and I just want to get an update on any new developments and schedule for the R4 report.

I also have some questions about the potential process for engaging R4 in the Bramlette Site.

Look forward to hearing from you.

Have a great weekend.

Dave
